

10/09/18

Dear Parents,

It is with great pleasure that I announce to you a new partnership with our school and The Felix Project.

**What is The Felix Project?**

The Felix Project is a food redistribution charity. They collect food that would otherwise go to waste, but is perfectly fine to eat, and distribute it to schools and charities across London.

**What is the schools programme?**

The Felix Project Schools Programme is a programme through which schools across the country can contribute to reducing food waste and all the associated consequences, for example the emissions of CO<sub>2</sub> and methane. They will work with us to develop awareness and skills around the issue of food waste and will take practical action against it. Together we will be making a difference!

**A weekly delivery of food**

We will receive a delivery of produce from The Felix Project every Thursday that will be made available to you for free at the school gates at home time. Just by using this food and averting it going to landfill, you will be preventing the same amount of environmental damage as a car driving around the globe twice every year!

We hope you are as excited as us about this new partnership and hope to see you at the stall soon!

Thank you for your support.
